Annual Sales will be verified at the time of inspection.		
1.7	User Fee Policies		
	The maximum amount of User Fees (for Sales-based and Acreage-based combined) that any member pays to OCIA Int'l, per calendar year is \$ 3,400 . Acreage-based User Fees will be based on the Product Listing Addendum and billed in full by OCIA International after certification is complete. Adjustments to acreage fees may be made by filing an "Additional Product/Program Affidavit" (APPA) with OCIA International, within 60 days from the date of the acreage fee invoice issued by OCIA International. This will result in a revised Product Listing Addendum and an adjustment to the acreage fee invoice.		

Master Fee Schedule

1.8 Inspection Fees

Annual Inspections: In addition to the certification fee, operations are charged for annual inspection services. An estimated amount is charged in advance along with the certification fees. Once an inspection has been completed, and the inspector has submitted an invoice to OCIA, the operator's account is either *credited or invoiced* for any balance difference. Inspection fees include, but are not limited to, the inspector's time spent in preparation for, execution of, and report production following the inspection; and travel expenses including transport, lodging, and meals. Inspection fees can vary significantly due to multiple factors including the size of the operation, location, complexity, inspector, and preparedness of records. The total inspection cost will generally be between \$300 and \$2500 for one day, depending on the previously noted factors.

OCIA makes every effort to combine inspection visits to operations in the same area whenever possible to divide and minimize expenses.

*Note: Balance differences from the estimated amount to the actual inspection of \$10 or less will be written off. Overpayments over \$10 will either be credited to the operators account or paid out by check.

Additional Inspections: If additional scheduled inspections are required to demonstrate substantial compliance or add new fields/sites or facilities, then the inspection costs as outlined above will be billed to the operator.

Unannounced Inspections: Certified operators are subject to unannounced inspections. No additional fees are assessed to the operator for unannounced inspections.

Cancelling Inspections: If you cancel a scheduled inspection with less than one week notice (from the date of the scheduled inspection) you may be assessed the inspector's preparation time, reimbursable expenses (travel, lodging, etc.) that have been incurred for the planned trip, as well as an administrative fee of \$100.
