Are you presently in good standing with all certifying agencies?

Section 2: Cropping and Livestock

(1) List the crops you have grown over the past three-year period. Please explain why certain rotations were used on your farm and why you grow these crops. Include the varieties of these crops.

(2) List your livestock species and breed. Tell how they fit into your organic farming system.

Section 3: Environment

(1) Describe what practices you use to maintain the natural environment in and around your farm.

(2) How do you enhance the natural environment in and around your farm?

Section 4: Farm Practices and Farming Innovations

- (1) Explain what you do to control pests and weeds on your operation.
- (2) Give an explanation of what you do to improve the quality of your soil.
- (3) Describe innovative and/or unique farming practices used on your organic farm.

Section 5: Food Handling

This may include harvesting techniques, storage, processing and marketing of crops you grow. Describe how the practices used ensure the integrity and safety of organic food products to organic customers.

Section 6: Farm Safety

In this section, describe some of the safety practices used to ensure the safety of everyone involved in the daily operation of your organic farm.

Section 7: Organic Involvement

List any committees or boards you may have been on or offices you held or worked on that helped promote or support organic agriculture and OCIA.

Section 8: Other Interests

Tell us about yourself. Include family information (if applicable) hobbies, community involvement or anything you would like to tell us about yourself outside of organics.

Thank you for your participation in the Outstanding Organic Farmer of the Year.
